

# DMSchedules for Special Education

Student Services Scheduling for Interventions,  
Special Education and Related Services

Scheduling general education, interventions, special education, and related services requires an integrated, coordinated, and adaptable approach to meet the needs of all students. Too often, these efforts are handled separately, resulting in disjointed, inefficient, and conflicting schedules.

DMGroup has created the DMSchedules for Special Education scheduling software in response to requests from thousands of educators nationwide to help with this challenge.

DMSchedules for Special Education scheduling software drives **efficient and coordinated student services scheduling and management** and helps **maximize student and staff time**. With DMSchedules, you can increase collaboration, streamline student services scheduling, and make sure nothing falls through the cracks while gaining insights to continually improve service delivery.

- ✓ **Create student service schedules** with drag-and-drop ease
- ✓ **Support compliance** with schedules created from IEP requirements
- ✓ **View homeroom schedules** to avoid pull-out services during core instruction
- ✓ **Create more equitable workloads** across all staff
- ✓ **Understand direct vs. indirect service time** and set goals to improve
- ✓ **Determine if group sizes are aligned** with district and student service goals
- ✓ **Increase staff collaboration** and efficiency
- ✓ **Get a 360° view** of all school, student services, and individual student schedules

“ There's now a through line from our priorities to our master schedule and our special education schedules.

- Principal, Farmington, CT

“ It has made it easier to schedule my students and see their complete daily schedule along with related services. The system has helped me confirm that I have all of their minutes accounted for.

- Special Education Teacher, Indian Prairie, IL

# Scheduling Student Services Has Never Been Easier!

Access to homeroom schedules to avoid pull out services during core blocks

Organization of service data to guide suggested student groupings

Time for Social Emotional Learning and Intervention

Easily access shared peer schedules, and manage teacher assistant schedules

Insights into other service provider schedules for students

## Staff schedules

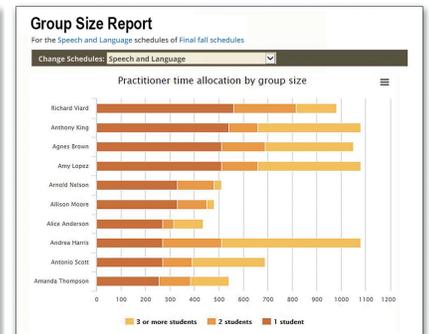

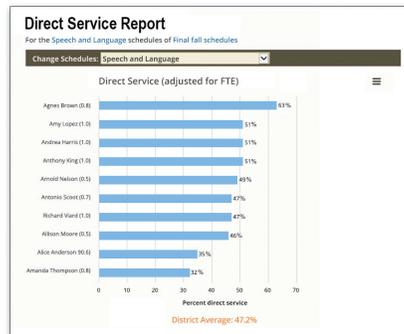

DMSchedules for Special Education aligns both the **school schedule and individual teacher, provider, and staff schedules** around district-defined guidelines. As they create their schedules, staff will have access to their caseload, their students' services, and students homeroom and specials schedules to avoid conflicts. The software suggests student groupings by grades, area of need, and settings, unlocking even more opportunities to improve student supports cost-effectively.

## Student schedules

DMSchedules for Special Education automatically creates **individualized schedules for each student receiving student services**. A complete view of each student's scheduled services, including services scheduled by others, and homeroom and specials schedules is easily accessible to authorized staff. This holistic student view saves time and energy and removes the frustration associated with scheduling of student services across different systems and tools.

## Insights and analytics

Our advanced reporting and analytics provides **insights into the efficiency of student services delivery and staff workload equitability**. Data is updated in real time to help determine who is overloaded, who may have capacity, and identify opportunities for improvement using key efficiency levers (caseloads, group size, direct vs. indirect time).

## Service and Support

DMGroup provides **implementation support** to help you meet the needs of all students with the staff you have. Our scheduling experts will assist you with the integration of school and student services information, training and facilitated support sessions, and on demand software support.
